FORM 2
MCH BUDGET DETAILS FOR FY 2009

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: OR

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])

Of the Federal Allocation (1 above), the amount earmarked for:

A.Preventive and primary care for children:

\$ 3,770,779 (60.76%)

B.Children with special health care needs:

\$ 1,861,903 (30%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 434,439 (7%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

\$ 6,206,342

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 13,163,039

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 7,268,157

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 3,950,427

\$ 20,431,196

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 26,637,538

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 319,757

b. SSDI: \$ 94,664

c. CISS: \$ 0

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 70,001,569

h. AIDS: \$ 0

i. CDC: \$ 8,424,887

j. Education: \$ 0

k. Other: \$ 0

FPEP Waiver \$ 31,016,826

Others \$ 289,198

Title X Family Plan \$ 2,301,880

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 112,448,781

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 139,086,319

FORM NOTES FOR FORM 3

Expenditures for FY 2007 are for the period October 1, 2006 through September 30, 2007. The Budget for FY 2009 is based on the Legislative Approve Biennial Budget for 2007-2009, divided by two.

Other Funds includes fees collected for newborn screening lab tests, which increased in FY 2007 due to addition of cystic fibrosis tests and addition of New Mexico to the multi-state newborn screening program located in Oregon.

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2006
Field Note:
The budget for FY 2006 was based on approved federal allocation for FY 2005, because FY 2006 was unknown at the time of grant submission. The expenditure for FY 2006 is the real allocation for FY 2006.
2. **Section Number:** Main
Field Name: StateMCHFundsExpended
Row Name: State Funds
Column Name: Expended
Year: 2006
Field Note:
The correct FY 2006 Budgeted amount for state funds should be \$17,048,410.
The correct FY 2007 Budgeted amount for state funds should be \$18,304,211.

Reporting for state match based on county revenue was over-estimated by \$7,334,695.
3. **Section Number:** Main
Field Name: OtherFundsExpended
Row Name: Other Funds
Column Name: Expended
Year: 2007
Field Note:
Other funds include newborn screening expenditures that were higher than budgeted.
4. **Section Number:** Main
Field Name: OtherFundsExpended
Row Name: Other Funds
Column Name: Expended
Year: 2006
Field Note:
5. **Section Number:** Main
Field Name: ProgramIncomeExpended
Row Name: Program Income
Column Name: Expended
Year: 2006
Field Note:
The State MCH Program does not receive direct program income.
6. **Section Number:** Main
Field Name: OtherFedFundsExpended
Row Name: Other Federal Funds
Column Name: Expended
Year: 2007
Field Note:
In previous years .and in the FY 2007 budget, the WIC food vouchers were not included in budgets or expenditures. A decision was made for 2007 report and 2009 application to begin including this amount (\$40,992,935) in subsequent years.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2009
[SEC. 506(A)(1)]
STATE: OR

1. State MCH Administration:
(max 2500 characters)

The Office of Family Health, Oregon Public Health Division, of the Dept of Human Services, administers the Title V Program. The services located in the state Title V agency include grants to counties, policy and program development and evaluation, population-based assessment and surveillance, and leadership and coordination of health systems and services for MCH populations, including high-risk pregnant women, infants and children, adolescents, and children with special health care needs. The Oregon Center for Children and Youth with Special Health Needs, in the Child Development and Rehabilitation Center, of the Oregon Health and Science University, administers the state Title V Program for children with special health needs. Direct and enabling individual services, community-based collaboration and coordination, and local assessments is conducted with Title V funds awarded by contract to county health departments in Oregon.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 6,206,342
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 13,163,039
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 7,268,157
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 26,637,538

9. Most significant providers receiving MCH funds:

County Health Departments
Tribal Governments

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	59,477
b. Infants < 1 year old	49,223
c. Children 1 to 22 years old	918,512
d. CSHCN	9,658
e. Others	77,399

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

Title V supports services across the life continuum, public health nurses in county health departments provide assessment, screening. Between 2001-2006, local public health nurses provided home visiting through the Babies First! home visiting program to an average of 10,540 clients per year, of which 76% of children with multiple risk factors, such as parents with addiction behaviors. Local public health nurses provide counseling, case management, medical care, client advocacy and parent education, as well as referral and follow-up. Title V supports the Oregon Center for Children and Youth with Special Health Needs Program (OCCYSHN) to assist interdisciplinary community based teams and public health nurses providing a variety of care coordination functions throughout the state. OCCYSHN's community based programs collaborate with local and state partners to facilitate services and provider training to enhance the community. Cultural competency and family involvement are infused in all aspects of OCCYSHN's community based activities.

b. Population-Based Services:
(max 2500 characters)

Title V programs link children, youth and families with services such as the Maternity Case Management, Newborn and Early Hearing Screening, Babies First and CaCoon identify risks and potential problems and linkage with appropriate health and related services, including early intervention for infants and children with special health needs. Oregon MothersCare provides linkages and assistance with Medicaid or health insurance enrollment early in pregnancy. Title V leads the OCCYSHN Family Involvement Network as an active statewide group of parents of children with special health needs that work with community based teams, providing family perspectives, supporting local families, and identifying community resources. OCCYSHN's Family Support Program provides limited financial support to assist families with items needed to care for their child/youth with special needs that are not covered by insurance. Oregon's School-Based Health Centers (SBHCs) provides comprehensive physical, mental and preventive health services to youth and adolescents in a school setting. Oregon's 45 SBHCS serve over 20,000 clients in 69,000 visits; about 45% are uninsured. Students report they were unlikely to receive care outside of the SBHC and more than half of students reported their health was better because of the SBHC.

c. Infrastructure Building Services:
(max 2500 characters)

Title V programs promote partnerships and coalitions to improve systems of care and state policies related to Maternal and Child Health and Children/Youth with Special Health Needs. Data collection, identification of best practice, and broad collaboration provides the basis for systems change and service improvement activities. Collaborative statewide action planning is achieved for oral health, preconception care, early childhood development, and consultation with child care providers. Oregon's Title V public health and OCCYSHN programs regularly involve family consultants in statewide policy and program decision-making. Family consultants have assisted in the development of statewide systems to improve early childhood developmental screening and referral, local client data systems, and work to expand family involvement at all levels, including the Family Involvement Network. Workforce training and technical assistance is provided by the Oregon Title V Programs to assure culturally competent and professional services are available in every community. The OCCYSHN program provides training and outreach to community providers to improve their knowledge and confidence in serving children with special health needs, including diagnosis, treatment and early and continuous screening.

12. The primary Title V Program contact person:

13. The children with special health care needs (CSHCN) contact person:

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions and additions to the questions used to generate the NPM03 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #03.

2. **Section Number:** Performance Measure #3

Field Name: PM03

Row Name:

Column Name:

Year: 2006

Field Note:

Data reported for 2004-2006 are from the 2003 National Survey for Children's Health - Children with Special Health Needs SLAITS data. The survey is conducted every 3-4 years. New data will be available in 2008-9.

PERFORMANCE MEASURE # 04

The percent of children with special health care needs age 0 to 18 whose families have adequate private and/or public insurance to pay for the services they need. (CSHCN Survey)

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	56	57	58	56	56
Annual Indicator	55.7	55.7	55.7	55.7	61.5
Numerator	64,259	64,259	64,259	64,259	
Denominator	115,367	115,367	115,367	115,367	

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were revisions to the wording, ordering and the number of the questions used to generate the NPM05 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #05.

2. **Section Number:** Performance Measure #5

Field Name: PM05

Row Name:

Column Name:

Year: 2006

Field Note:

Data reported for 2004-2006 are from the 2003 National Survey for Children's Health - Children with Special Health Needs SLAITS data. The survey is conducted every 3-4 years. New data will be available in 2008-9.

PERFORMANCE MEASURE # 06

The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	6	6	10	6	6
Annual Indicator	5.8	5.8	5.8	5.8	43.7
Numerator	6,691	6,691	6,691	6,691	
Denominator	115,367	115,367	115,367	115,367	

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes

1. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2007

Field Note:

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

2. **Section Number:** Performance Measure #6

Field Name: PM06

Row Name:

Column Name:

Year: 2006

Field Note:

Data reported for 2004-2006 are from the 2003 National Survey for Children's Health - Children with Special Health Needs SLAITS data. The survey is conducted every 3-4 years. New data will be available in 2008-9.

PERFORMANCE MEASURE # 07

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	78	79	79	80	75
Annual Indicator	76.5	78.5	72	78.4	78.4
Numerator					
Denominator					

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes**1. Section Number:** Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2007

Field Note:

Target for 2007 should be changed to 79.0%

2007 data is not available from National Immunization Survey.

2. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2006

Field Note:

Source: National Immunization Survey

Target for 2006 should be changed to 79.0%

3. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2005

Field Note:

2004 rate should be changed to 78.9% (as of June, 2008)

PERFORMANCE MEASURE # 08

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	17.5	17	16	15.5	15
Annual Indicator	16.5	15.6	15.8	17.7	15.2
Numerator	1,225	1,117	1,151	1,303	1,127
Denominator	74,433	71,614	72,821	73,444	73,997

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes**1. Section Number:** Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2007

Field Note:

Source: National Immunization Data, CDC. Table 2, Geographic-specific Breastfeeding Rates among Children. Correct trends are:

2006 data repeated for TVIS reporting.

2. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2006

Field Note:

Source: National Immunization Data, CDC. Table 2, Geographic-specific Breastfeeding Rates among Children. Correct trends are:

2000 = 54.3%

2001 = 57.5%

2002 = 47.9%

2003 = 62.3%

2004 56.4%

Data from 2004 also known as 2006 respondents - mothers of babies age 19-35 months old.

NIS does not provide a numerator and denominator.

3. Section Number: Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2005

Field Note:

a) The number entered here represents 2004 data.

b) 2005 NIS data is not yet available.

c) The annual indicator, from NIS, for 2003 was 54.1%. Both are above the HP2010 goals.

PERFORMANCE MEASURE # 12

Percentage of newborns who have been screened for hearing before hospital discharge.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	98.5	98.8	99.1	99.4	99.7
Annual Indicator	95.0	93.4	95.4	95.4	96.7
Numerator	43,565	43,310	44,594	45,516	48,205
Denominator	45,844	46,357	46,763	47,711	49,843

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

PERFORMANCE MEASURE # 17

Percent of very low birth weight infants delivered at facilities for high-risk deliveries and neonates.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	85	85	85	85	81
Annual Indicator	76.8	81.9	79.1	75.7	99.2
Numerator	358	397	375	368	475
Denominator	466	485	474	486	479

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes**1. Section Number:** Performance Measure #17**Field Name:** PM17**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source: Hospital Discharge Data, 2007.

Previous year reported from 6 hospitals with NICUs. 2007 data is reporting from all hospitals and birthing centers.

Oregon does not have designated high risk delivery facilities, so numerator is based on very low birthweight infants born in hospitals.

2. Section Number: Performance Measure #17**Field Name:** PM17**Row Name:****Column Name:****Year:** 2006**Field Note:**

Oregon does not have designated high risk delivery facilities, so numerator is based on very low birthweight infants born in hospitals.

3. Section Number: Performance Measure #17**Field Name:** PM17**Row Name:****Column Name:****Year:** 2005**Field Note:**

Oregon does not have designated high risk delivery facilities, so numerator is based on very low birthweight infants born in hospitals.

PERFORMANCE MEASURE # 18

Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	84	85	85	85	82
Annual Indicator	81.0	81.5	81.0	79.2	78.4

Field Level Notes

1. **Section Number:** State Performance Measure #3

Field Name: SM3**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source: Oregon EHDI Program

2. **Section Number:** State Performance Measure #3

Field Name: SM3**Row Name:****Column Name:****Year:** 2006**Field Note:**

EHDI referred a total of 81 infants to EI. Of those, 38 enrolled in EI by six months of age, six enrolled between six and 12 months of age, 17 did not enroll, and 20 had an unknown enrollment status. Of the 17 infants who did not enroll in EI, five were not eligible for the program due to normal hearing (4) or due to unilateral/mild loss (1), two moved out of Oregon, seven families refused the services, and three were lost to follow-up. Excluding the seven infants who were not eligible for the program or moved out of the state, the rate of enrollment by six months of age was 51% (38/74).

STATE PERFORMANCE MEASURE # 4

Percent of children that complete the 4th DTaP vaccine by two years of age.

<u>Annual Objective and Performance Data</u>

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes**1. Section Number:** State Performance Measure #8**Field Name:** SM8**Row Name:****Column Name:****Year:** 2007**Field Note:**

This represents a proxy measure of confidence. This is the number of providers trained of those "available" in the program year to train, including CaCoon Coordinators (45), Promotoras (4), community members of the Community Connections Network (42), CDRC clinicians (35), LEND Trainees (12) and our Family Liaison (6). Of the 144 providers who were available to receive training by OCCYSHN, 135 participated in training activities.

OCCYSHN is working to develop a measure of confidence of providing care to CYSHN.

The numbers reported for 2006 and 2007 are identical due to the fact that we inadvertently reported 2007 data in 2006. In 2008 we have begun to implement a survey item asking trained providers to indicate the extent to which they are confident in the care of CYSHN and their families.

2. Section Number: State Performance Measure #8**Field Name:** SM8**Row Name:****Column Name:****Year:** 2006**Field Note:**

This represents a proxy measure of confidence. This is the number of providers trained of those "available" in the program year to train, including CaCoon Coordinators (45), Promotoras (4), community members of the Community Connections Network (42), CDRC clinicians (35), LEND Trainees (12) and our Family Liaison (6). Of the 144 providers who were available to receive training by OCCYSHN, 135 participated in training activities.

OCCYSHN is working to develop a measure of confidence of providing care to CYSHN.

3. Section Number: State Performance Measure #8**Field Name:** SM8**Row Name:****Column Name:****Year:** 2005**Field Note:**

This year the number of potential providers to train relative to caring for CYSHN increased to 181. This includes:
 75 Community based providers via our Community Connections Network
 45 Public Health Nurses via our CaCoon Program
 5 promotoras via our CaCoon Program
 35 CDRC Clinicians
 16 LEND Trainees (these numbers may change slightly from year to year)
 5 providers via the Oregon Rural Providers Research Network (ORPRN)

STATE PERFORMANCE MEASURE # 9

Percent of families of CYSHN who report costs not covered by insurance were usually or always reasonable.

	<u>Annual Objective and Performance Data</u>				
	2003	2004	2005	2006	2007
Annual Performance Objective				65	65

Field Level Notes

1. **Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2007

Field Note:

This year's report of State Performance #9 is derived from item C8Q01_B of the NS-CSHCN for 2005/2006. There is a slight variation in the item from the 2001 survey in that the response option "No out of pocket costs" was added which 7.9% of Oregon respondents selected.

2. **Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2006

Field Note:

2006 data not available; data from 2005 is carried forward.

3. **Section Number:** State Performance Measure #9

Field Name: SM9

Row Name:

Column Name:

Year: 2005

Field Note:

The indicator of this measure is the National Survey of CSHCN (SLAITS) Item C8q01_b which reads, "Are the costs not covered by (child's name) health insurance reasonable?" The response options are Never, Sometimes, Usually, or Always.

Weighted estimates for the Oregon respondents to Item C8q01_b are reported:

Numerator is calculated as Always = 36,196 + Usually = 34,498 Denominator weighted estimate for Oregon of 113,418, yielding a calculated Annual Indicator for 2005 of 62.3%.

STATE PERFORMANCE MEASURE # 10

Percent of families of CYSHN who reside in rural areas report that needs are usually or always met.

Annual Objective and Performance Data					
	2003	2004	2005	2006	2007
Annual Performance Objective				80	80
Annual Indicator			80.3	80.3	72.4
Numerator			6,988	6,988	7,200
Denominator			8,706	8,706	9,945
Is the Data Provisional or Final?				Provisional	Provisional

Annual Objective and Performance Data

Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes**1. Section Number:** State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source: National Survey of Children with Special Health Needs, 2005-06.

There are an estimated 116,988 CSHCN in Oregon. 8.5% of CSHCN population in Oregon live in small town/rural areas. $116,988 \times .085 = 9945$ CSHCN living in small town/rural areas of OR. 27.6% of CSHCN in OR had 1 or more unmet needs for health care services. $(9945 \times .276 = \text{about } 2745 \text{ CSHCN with unmet needs living in small town/rural areas of OR.})$ $9945 - 2745 = 7200$ CSHCN with no unmet needs living in small town/rural areas of OR or 72.4%. This number is very similar to OCCYSHN reported in 2006 BUT it may not represent an improvement since there were more CSHCN living in small town/rural areas of OR (9945 vs. 8706) AND the level of unmet needs increased as well (27.6% vs. 19.7%). These shifts appear to result in a net increase in the number of CSHCN with unmet needs living in small town/rural areas of OR, but this may be in within the range of sampling error, something we will aim to examine this next program year.

2. Section Number: State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2006**Field Note:**

2006 data is not available; 2005 data from the SLAITS NS-CSHN is carried forward.

3. Section Number: State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2005**Field Note:**

Based on a sample population of children with special needs (responding to the NSCH-CSHN survey) an estimated 8706 were living within zip codes identified as being "small town or rural" as the weighted denominator. 80.27% had no unmet needs, yielding a derived estimate of 6988 children (numerator) with special health needs living in rural areas with no unmet needs.

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: OR

Form Level Notes for Form 12

None

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2003	2004	2005	2006	2007
Annual Performance Objective	5.4	5.3	5.3	5.3	5.3
Annual Indicator	5.6	5.4	5.8	5.4	5.5
Numerator	256	246	268	262	272
Denominator	45,935	45,660	45,905	48,684	49,223

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer
 than 5 and therefore a 3-year moving average cannot be
 applied.

(Explain data in a year note. See Guidance, Appendix IX.)

FORM 13
CHARACTERISTICS DOCUMENTING FAMILY PARTICIPATION IN CSHCN PROGRAMS
STATE: OR

1. Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate.

3

2. Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups.

3

3. Family members are involved in the Children with Special Health Care Needs elements of the MCH Block Grant Application process.

3

4. Family members are involved in service training of CSHCN staff and providers.

3

5. Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member).

3

6. Family members of diverse cultures are involved in all of the above activities.

2

Total Score: 17

Rating Key

0 = Not Met

1 = Partially Met

2 = Mostly Met

3 = Completely Met

FORM NOTES FOR FORM 13

The OCCYSHN Family Involvement Network program staff developed a series of worksheets to assess areas of family involvement within OCCYSHN and its related systems of care activities. The worksheets were used to determine a baseline of the level and type of family involvement in decision making at all levels and for completion of Form 13. These forms will be revisited each year as we track our progress. Each OCCYSHN staff member, including families on staff, independently completed Form 13 and the ratings are an average of the total responses.

FIELD LEVEL NOTES

None

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: OR FY: 2009

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Improve access to comprehensive and coordinated health care; facilitate screening, assessment and intervention services, including early hearing detection; increasing completion of DTAP vaccines among 2 year olds; and assuring adolescents health care needs are met.
2. Support behaviors and environments that encourage wellness and reduce chronic disease by increasing continued smoking cessation among women during and after pregnancy; increasing births that are intended; and increasing optimally fluoridated water systems.
3. Promote optimal mental health and social emotional development. Oregon Title V will develop infrastructure, measures, and activities, integrated and linked with services, in areas such as maternal depression and social/emotional health of children and adolescents.
4. Increase the number of parents who are confident in caring for their children, and health providers show confidence in caring for children with special health needs.
5. Increase the number of families of children and youth with special health needs report costs were usually or always reasonable, when not covered by insurance.
6. Increase the number of families of children and youth with special health needs who reside in rural areas report that needs are usually or always met.
7. Cross-Cutting Priority: Promote equity in health by reducing disparities; promote equity means to create policies, systems and resources.
8. Cross-Cutting Priority: Advocate public health within existing systems; promote the role of public health and Office of Family Health as a partner in early childhood services and systems.

TECHNICAL ASSISTANCE(TA) REQUEST

STATE: OR

APPLICATION YEAR: 2009

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested (max 250 characters)	Reason(s) Why Assistance Is Needed (max 250 characters)	What State, Organization or Individual Would You suggest Provide the TA (if known) (max 250 characters)
1.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Develop and co-sponsor an Oregon Perinatal Depression Symposium targeted at a broad range of providers.	Symposium to improve capacity for perinatal depression education and increase understanding of perinatal depression among Oregon health providers and professionals, increase investment at state and local levels to address perinatal depression.	A nationally recognized expert in perinatal depression to be the keynote speaker at the symposium
2.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Training for county PHNs is needed to help them deal with IPV, CA and strategies for helping clients get the services they need, especially small and rural communities.	PHNs encounter a variety of home life situations that have an emotional impact; some PHNs need skill building on how to handle the emotional impact and/or provide appropriate plans of actions for clients.	Expert in risk communication for health professionals or related field
3.	National Performance Measure Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> 2 </u>	Strategies to improve awareness of the benefits of FPP within clinical and public health arenas, and economic sustainability; and to strengthen its ability to effectively engage and disseminate this model to practices and programs throughout Oregon.	OCCYSHN and OFH are working to enhance Family Professional Partnerships (FPP) and the inclusion of families as necessary and critical partners in decision making all levels.	Pediatric and or Family Practice Physician Champion and a Family Leader. Dr. Rich Antonelli is recommended as a Physician Champion and Christie Blakely or Eileen Forlenza from Colorado as Family Leaders.
4.	Data-related Issues - Data Systems Development If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	An assessment of OCCYSHN evaluation capacity to strengthen the ability to accurately profile the health needs of the CYSHN population, and to develop the Center's program evaluation, data analysis, and surveillance capacity and leadership.	OCCYSHN is improving its program evaluation capacity to better assess effectiveness of program activities and identify key variables that require its ongoing surveillance and assessment.	External consultant in surveillance, program evaluation, and assessment capacity building.
5.	Data-related Issues - Data Systems Development If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	External consultation is needed to train program evaluator professionals in population data analysis methodologies and to train population data professionals in program evaluation methodologies.	The new Evaluation Unit in OFH is in its formative stage and one of its needs is to build a team of surveillance and evaluation experts that are cross-trained in skills.	External consultant in evaluation assessment and capacity building
6.	Data-related Issues - Needs Assessment If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	To prepare an assessment plan relevant to current and emerging priorities and issues	Oregon's Title V Program would like to create a strategic plan for the next five-year needs assessment, including identifying data analyses that need to occur and opportunities for qualitative input on the priorities of stakeholders and the public.	Evaluator and/or planner to work with Title V Leadership and staff in a retreat to develop a strategic plan for the five-year needs assessment
7.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
8.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>

FORM NOTES FOR FORM 15

None

FIELD LEVEL NOTES

None

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: OR

SP # 1

PERFORMANCE MEASURE:

Percent of births where mothers report that the pregnancy was intended

STATUS:

Active

GOAL

Increase the number of births that are intended.

DEFINITION

need a definition

Numerator:

Number of women reporting to PRAMS that they wanted to be pregnant later or not at any time in the future, weighted to reflect a percent of the Oregon population of resident women delivering live infants in Oregon.

Denominator:

Number of Oregon resident women delivering live infants in Oregon during the calendar year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16-6 Increase the proportion of pregnant women who receive early and adequate prenatal care.

DATA SOURCES AND DATA ISSUES

This measure was changed from intended "pregnancies" to intended "births for clarity. Intendedness is derived from self reports on the PRAMS survey (about 4 months post partum). PRAMS only includes women that had a live birth.

SIGNIFICANCE

The Institutes of Medicine report, "Best Intentions," published in 1995, indicates that unintended pregnancies are an important indicator for the MCH status. The report states: "A woman with an unintended pregnancy is less likely to seek early prenatal care and more likely to expose the fetus to ... tobacco or alcohol. The child of an unwanted conception especially (as distinct from a mistimed one) is at greater risk of being born at low birthweight, of dying in its first year of life, of being abused, and of not receiving sufficient resources for healthy development. The mother may be at greater risk of depression and of physical abuse herself, and her relationship with her partner is at greater risk of dissolution. Both mother and father may suffer economic hardship and may fail to achieve their educational and career goals."

SP # 2

PERFORMANCE MEASURE:

Percent of smoking women who quit smoking during their pregnancy and did not begin smoking postpartum.

STATUS:

Active

GOAL

Increase the percent of women who quit smoking during their pregnancy and not begin smoking postpartum.

DEFINITION

Numerator:

Among women that smoked during the three months prior to pregnancy, the number of women who responded to PRAMS that they did not smoke during the last 3 months of pregnancy and are not currently smoking.

Denominator:

Number of women who responded to PRAMS that they smoked during the 3 months before pregnancy.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16-17 Increase abstinence from alcohol, cigarettes, and illicit drugs among pregnant women. Goal 27: Reduce illness, disability, and death related to tobacco use and exposure to secondhand smoke.

DATA SOURCES AND DATA ISSUES

PRAMS is the only source currently available to measure the prevalence of whether or not women are quitting smoking during their pregnancy. PRAMS only includes women who have a live birth, therefore, excluding the population of pregnancies that end prior to birth and may be affected by tobacco use.

SIGNIFICANCE

Smoking during pregnancy is associated with fetal death, low birthweight, SIDS rate increase, and respiratory difficulties for newborns. Smoking among pregnant women is associated with alcohol and other drug use, both of which are harmful to the fetus. Quitting smoking during pregnancy has been shown to improve overall birth outcomes. Oregon programs have recently begun using the ACOG recommended Five A's smoking cessation protocol for pregnant women. It has shown effectiveness in intervention and increasing the confidence of the nurses administering it. As a result this model has been incorporated throughout additional statewide programs.

SP # 3

PERFORMANCE MEASURE:

Percent of infants diagnosed with hearing loss that are enrolled or in Early Intervention before 6 months of age.

STATUS:

Active

GOAL

Increase the percentage of infants diagnosed with hearing loss that are enrolled in Early Intervention before 6 months of age.

DEFINITION

Numerator:

Number of infants that were diagnosed by an audiologist with a hearing loss (any type, any degree) by three months of age that were enrolled in Early Intervention before 6 months of age.

Denominator:

Number of infants that are diagnosed by an audiologist with a hearing loss (any type, any degree) by three months of age.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

28-11 (Developmental) Increase the proportion of newborns who are screened for hearing loss by age 1 month, have audiologic evaluation by age 3 months, and are enrolled in appropriate intervention services by age 6 months.

DATA SOURCES AND DATA ISSUES

The data will be measured using the Oregon EHDI database system, which includes 93% of all occurrence births. Source does not currently incorporate all screenings from non-hospital based facilities and home births.

SIGNIFICANCE

"The first six months of life are a critical time to develop communication skills. Studies have shown that babies with hearing loss, who receive early intervention services before six months of age, have significantly improved outcomes in communications skills."

SP # 4

PERFORMANCE MEASURE:

Percent of children that complete the 4th DTaP vaccine by two years of age.

STATUS:

Active

GOAL

Increase the percent of children that complete the 4th DTaP vaccine by two years of age.

DEFINITION

Numerator:

The number of children age 19-35 months that have received a 4th DTaP vaccine for a given calendar year, weighted to reflect a percent of the Oregon population of children age 19-35 months.

Denominator:

The number of children age 19-35 months that responded to the NIS survey from the state of Oregon for a given calendar year, weighted to reflect the Oregon population of children age 19-35 months.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

14-22 Achieve and maintain effective vaccination coverage levels for universally recommended vaccines among young children. Specifically, 14-22a focused on 4 doses diphtheria-tetanus-acellular pertussis (DTaP) vaccine with a 2010 target of 90% coverage.

14-24 Increase the proportion of young children and adolescents who receive all vaccines that have been recommended for universal administration for at least 5 years. HP 2010 objective 14-24a focuses on children age 19-35 months who receive the recommended vaccines (4DTaP, 3 polio, 1MMR, 3 Hib, 3 hep B) and has a target of 80% coverage by 2010.

DATA SOURCES AND DATA ISSUES

The National Immunization Survey determines an estimate of the number of children age 19-35 months in Oregon that have completed their 4th DTaP vaccine. This data source offers a continual measure, however, its sample of Oregon children is limited (500+/-). The Oregon ALERT registry also tracks vaccine coverage for Oregon residents and may become the source of this data in the future.

SIGNIFICANCE

Maintenance of high vaccination coverage levels in early childhood is the best way to prevent the spread of VPDs in childhood and to provide the foundation for controlling VPDs among adults. Completion of the 4th DTaP by age 2 is also a good indication of children receiving all the necessary childhood immunizations and well-child visits.

SP # 5

PERFORMANCE MEASURE:

Percent of 8th graders who report being physically active for a total of at least 60 minutes a day for 5 or more days in the last 7 days.

STATUS:

Active

GOAL

To increase the percentage of 8th graders who are physically active at least 60 minutes per day for at least 5 days per week

DEFINITION

The numerator and denominator are derived from the number of 8th graders who responded to the Oregon Healthy Teens Survey, Oregon's YRBS survey.

Numerator:

The number of 8th graders who report being physically active for a total of at least 60 minutes a day for 5 or more days in the last 7 days.

Denominator:

The number of 8th graders that responded to the question regarding how many days they were physically active for at least 60 minutes per day in the last 7 days.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

19-3 Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

The Oregon Healthy Teens survey will be used as the source of this performance measure. The survey includes a question regarding the number of days that each student has been physically active for a total of 60 minutes per day that "made them sweat or breathe hard" in the past 7 days. Unfortunately this doesn't specifically measure whether or not the person met the daily recommendations for physical activity nor is it specific about the level of physical activity. However, the correlation between this question and the OHT question regarding how many days in the last 7 days the respondent participated in physical activity for at least 20 minutes that made the respondent sweat or breathe hard was 0.6%.

SIGNIFICANCE

The prevalence of health risks, including reduction in quality of life and life expectancy, increase with weight. There is much concern about the increasing prevalence of obesity in children and adolescents. Developing patterns of healthy behavior and maintaining those patterns through adulthood can help to reduce weight and, in turn, health risks. Healthy People 2010 reports that "The reduction of the BMI in children and adolescents should be achieved by emphasizing physical activity and a properly balanced diet so that healthy growth is maintained."

SP # 6

PERFORMANCE MEASURE:

Percent of 11th graders who report having unmet health care needs.

STATUS:

Active

GOAL

Decrease the percentage of 11th graders that report having unmet health care needs.

DEFINITION

Numerator:

Number of 11th graders that responded to the OHT survey they did not have any unmet health care needs in the past 12 months.

Denominator:

Number of 11th graders that responded to the question regarding unmet health care needs in the OHT survey.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Goal 1: Improve access to comprehensive, high-quality health care services.

DATA SOURCES AND DATA ISSUES

The Oregon Healthy Teens survey will be used as the source of this performance measure. The survey includes a question regarding the type of health care need for which respondent's needs were unmet or that the respondent did not have any unmet health care needs over the past 12 months. Access to some health care options, including Medicaid and school based health centers, are affected by the legislative budget, which cannot be accounted for by the data source.

SIGNIFICANCE

Improving access to quality care must be improved to realize the full potential of prevention. Due to budget constraints many of the healthcare options available to adolescents in the past are no longer available and there has been an increase in the proportion of 11th graders with unmet health care needs. Oregon OFH Adolescent Health Program provides services to Oregon students through their school-based health centers and facilitates a coordinated school health coalition to support increased health care services to adolescents and youth. This measure is a proxy to evaluate the access to health care services for the adolescent population.

SP # 7

PERFORMANCE MEASURE:

Percent of Oregonians living in a community where the water system is optimally fluoridated.

STATUS:

Active

GOAL

Increase the number of Oregonians who live in a community with fluoridated water systems.

DEFINITION

Numerator:

Population of communities with natural or adjusted fluoride levels at 0.7 ppm or greater

Denominator:

Population with access to community water systems

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

21-9 Increase the proportion of the U.S. population served by community water systems with optimally fluoridated water. The national target by 2010 is 75%.

DATA SOURCES AND DATA ISSUES

The Oregon Health Division, Drinking Water Section, provides yearly water fluoridation statistics for community systems with natural or adjusted fluoride.

SIGNIFICANCE

Community water fluoridation is a proven safe, effective and inexpensive way to prevent tooth decay ("caries"). Fluoride works by stopping or even reversing the caries process, thus keeping the enamel strong and intact. By reducing or eliminating caries in infants and children, needless pain and infection is reduced, developmental growth is not impeded, social skills and esteem is enhanced, and the public burden in dental care financing is significantly decreased. Fluoride delivery through community water systems benefits all infants and children, regardless of socioeconomic status. Since 1990, less than one quarter of Oregon's population has had access to fluoridated water at the level of 0.7 parts per million or more through community water systems. This has become an area of focus for the Oregon legislature recently and we hope to see change soon.

SP # 8

PERFORMANCE MEASURE:

Percent of health care providers who report confidence in caring for CYSHN and their families

STATUS:

Active

GOAL

Increase the number of CYSHN and their families who receive comprehensive services through an integrated system of care in their local community

DEFINITION

This performance measure is defined as the extent to which providers receiving training and/or consultation by OCCYSHN are able to report a high level of confidence in providing care to CYSHN and their families.

Numerator:

The number of providers, including CaCoon PHN, CCN Providers, CaCoon Promotoras, CDRC Clinicians, LEND Trainees and ORPRN Providers who report confidence in their care of children and youth with special needs following completion of OCCYSHN training and consultation.

Denominator:

The total number of Oregon Providers with whom OCCYSHN is in partnership and/or contract to provide services to children with special needs.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

None

DATA SOURCES AND DATA ISSUES

Number of health care providers who participate in Title V sponsored training activities. Other Data Sources to be Monitored: Survey of Parents and Youth Visiting Primary Care Offices, Survey of Oregon Primary Care Physicians, Survey of Community Providers

SIGNIFICANCE

The decentralization of services for CYSHN places children with providers who are not necessarily trained or familiar with their special needs. The expansion of Medicaid and commercial managed care is placing more CYSHN in a medical home in their community. The experience and training of these primary and ancillary care providers does not typically include services to this population. Confidence reflects applying appropriate skills and knowledge and also establishing community partnerships in caring for CYSHN and their families. The necessary skills and knowledge include diagnosis, treatment and prevention, timely referral to specialists, adoption of family-centered care and building appropriate community partnerships. A number of adult health care providers, and health care and other providers in rural communities lack the necessary training and supports to provide comprehensive care in the local community.

SP # 9

PERFORMANCE MEASURE:

Percent of families of CYSHN who report costs not covered by insurance were usually or always reasonable.

STATUS:

Active

GOAL

Increase the percent of families of CYSHN whose out of pocket costs are not unreasonable in order to receive the care they need for their CYSHN

DEFINITION

Costs reported as reasonable by families responding to the NS-CSHCN Survey will be accepted as the definition for this performance measure.

Numerator:

The numerator equals the weighted estimate of Oregon respondents to the NS-CSHCN who answer item C8q01_b that the costs not covered by insurance were usually or always reasonable.

Denominator:

The denominator is the weighted estimate for Oregon of the total number of families surveyed by the NS-CSHCN.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

None

DATA SOURCES AND DATA ISSUES

National Survey of Children with Special Health Care Needs (SLAITS) Other Data Sources To be Monitored: Survey of parents and youth attending primary care offices, Survey of Primary Care Physicians, Survey of Community Providers, Comparison of the Reports of Rural vs. Urban Families and Providers

SIGNIFICANCE

Families of CYSHN depend on a variety of services that are not reimbursed or poorly reimbursed by public and private insurance. For example, these services include care coordination, child care and respite, parent-to-parent support and transportation.

SP # 10

PERFORMANCE MEASURE:

Percent of families of CYSHN who reside in rural areas report that needs are usually or always met.

STATUS:

Active

GOAL

Increase the number of CYSHN and their families who receive comprehensive care in rural communities

DEFINITION

"Rural areas" are defined as Small Town and Isolated Rural Areas with zip code areas containing no towns of 10,000 or over and not connected to larger urban areas through primary or secondary commuting flows of 5% or more of the working population.

Numerator:

Number of families reporting to the NS-CSHCN that their needs are usually or always met weighted to reflect a percent of the Oregon population of families with CSHCN

Denominator:

Number of families with CSHCN surveyed by the NS-CSHCN weighted to reflect the Oregon population of families with CSHCN

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

None

DATA SOURCES AND DATA ISSUES

National Survey of Children with Special Health Needs (SLAITS) Other Data Sources to be Monitored: Survey of parents and youth attending primary care offices, Survey of Primary Care Physicians, Survey

SIGNIFICANCE

Families of CYSHN who reside in rural Oregon report more difficulty accessing information about services and limited access to certain health care services, particularly dental and mental health services. In addition, they often travel a great distance to obtain care and experience higher out-of-pocket costs for care.

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

	<u>Annual Indicator Data</u>				
	2003	2004	2005	2006	2007
Annual Indicator	18.7	18.1	15.1	14.8	14.8
Numerator	428	414	346	342	342
Denominator	228,681	228,294	229,032	230,908	230,908

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer
 than 5 and therefore a 3-year moving average cannot be
 applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Provisional

Field Level Notes**1. Section Number:** Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2007

Field Note:

OCCYSHN is exploring technical assistance to develop data sources for the numerator and denominator for Oregon. for this measure.

2. Section Number: Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2006

Field Note:

A reliable data source is still not available for this measure. As noted in prior year, in the past OCCYSHN has generated a list of children seen at the Child Development and Rehabilitation Center clinic for rehabilitation services and has that list compared to the list of children receiving SSI from the Oregon Department of Human Services. This strategy is no longer viable in light of HIPAA and time-restraints. A proxy measure was explored. OCCYSHN has finalized the letter which DHS-SSI Office has agreed to send out indicating to families their eligibility for OCCYSHN program services as the numerator to the total number of children under the age of 16 residing in Oregon. We anticipate the letter being implemented beginning FY2008 (July 1, 2007).

The source for our denominator is the Social Security Administration Supplemental Security Record, Table: Number of Children under the Age of 16 Receiving Federally Administered SSI Payments, December 06. When/if we the numerator, we will make the report final.

The program's ability to influence HSCI 8 is enhanced by the Oregon Medicaid Rules mandate that children who are SSI-eligible receive OHP Plus (Medicaid) coverage with no co-pay for services and the OCCYSHN Program partnership with the Oregon Children's Intensive In-Home Services (CIIS) and Oregon Seniors and People with Disabilities to inform families of the benefits available to them.

3. Section Number: Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2005

Field Note:

A reliable data source is not available for this measure at this time. In the past, OCCYSHN has generated a list of children seen at the Child Development and Rehabilitation Center clinic for rehabilitation services and was compared to the list of children receiving SSI from the Oregon Department of Human Services. This strategy is no longer viable in light of HIPAA and time-restraints. A proxy measure is being explored. We are exploring the possibly of reporting the number of notices sent by the DHS-SSI Office indicating to families their eligibility for OCCYSHN program services as the numerator to the total number of children under the age of 16 residing in Oregon.

The source for our denominator is the Social Security Administration Supplemental Security Record, Table: Number of Children under the Age of 16 Receiving Federally Administered SSI Payments, December 05. When we have obtained the numerator, we will make the report final.

The program's ability to influence HSCI 8 is enhanced by the Oregon Medicaid Rules mandate that children who are SSI-eligible receive OHP Plus (Medicaid) coverage with no co-pay for services and the OCCYSHN Program partnership with the Oregon Children's Intensive In-Home Services (CIIS) and Oregon Seniors and People with Disabilities to inform families of the benefits available to them.

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	2	Yes
Annual linkage of birth certificates and WIC eligibility files	3	Yes
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	No
Annual birth defects surveillance system	1	No
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: OR

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: P		

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FIELD LEVEL NOTES

1. **Section Number:** Indicator 09A
Field Name: BirthDefects
Row Name: Annual birth defects surveillance system
Column Name:
Year: 2009
Field Note:
Oregon was approved but not funded by CDC for a Birth Defects Registry two years in a row. The Title V Program continues advocacy at the state level for creating and sustaining a Birth Defects Registry in collaboration with partners and stakeholders.
2. **Section Number:** Indicator 09A
Field Name: RecentMother
Row Name: Survey of recent mothers at least every two years (like PRAMS)
Column Name:
Year: 2009
Field Note:
Oregon PRAMS-2 is administered by the Title V Program, began collecting data in 2005-06.
3. **Section Number:** Indicator 09B
Field Name: YRBSS_09B
Row Name: Youth Risk Behavior Survey (YRBS)
Column Name:
Year: 2009
Field Note:
Oregon's YRBS is titled "Oregon Healthy Teen (OHT) Survey" and is conducted as one state-sponsored survey. The OHT is administered through a collaborative group of state agencies including the Department of Human Services, the Department of Education, the Governor's Commission on Juvenile Justice, the Commission on Children and Families and the Oregon Progress Board. The survey instruments have been revised annually since 1991.

FORM 20
HEALTH STATUS INDICATORS #01-#05

HEALTH STATUS INDICATOR MEASURE # 03A

The death rate per 100,000 due to unintentional injuries among children aged 14 years and younger.

		Annual Indicator Data			
	2003	2004	2005	2006	2007
Annual Indicator	<u>10.1</u>	<u>9.2</u>	<u>6.1</u>	<u>6.1</u>	<u>6.1</u>
Numerator	<u>73</u>	<u>67</u>	<u>43</u>	<u>43</u>	<u>43</u>
Denominator	<u>722,905</u>	<u>729,110</u>	<u>699,202</u>	<u>699,202</u>	<u>699,202</u>
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.					
(Explain data in a year note. See Guidance, Appendix IX.)

Projections for race and ethnicity not available for 2007.
Native Hawaiian/Pacific Islander included with Asian.
10. **Section Number:** Indicator 06B

- Field Name:** S06_Ethnicity_Children10to14
Row Name: children 10 through 14
Column Name:
Year: 2009
Field Note:
2005 inter-censal projections: Population Research Center, Portland State University.
Projections for race and ethnicity not available for 2007.
Native Hawaiian/Pacific Islander included with Asian.
11. **Section Number:** Indicator 06B
Field Name: S06_Ethnicity_Children15to19
Row Name: children 15 through 19
Column Name:
Year: 2009
Field Note:
2005 inter-censal projections: Population Research Center, Portland State University.
Projections for race and ethnicity not available for 2007.
Native Hawaiian/Pacific Islander included with Asian.
12. **Section Number:** Indicator 06B
Field Name: S06_Ethnicity_Children20to24
Row Name: children 20 through 24
Column Name:
Year: 2009
Field Note:
2005 inter-censal projections: Population Research Center, Portland State University.
Projections for race and ethnicity not available for 2007.
Native Hawaiian/Pacific Islander included with Asian.
13. **Section Number:** Indicator 09A
Field Name: HSIRace_Children
Row Name: All children 0 through 19
Column Name:
Year: 2009
Field Note:
Table 9. Population by Age and Sex for Oregon and Its Counties: July 1, 2007. Prepared by Population Research Center, PSU, March 2008.
14. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2009
Field Note:
Source: DHS Child Welfare Research and Reporting Unit. Unduplicated clients, end of month master files, age 0-19 at time of pull. Don Bartell, Data Base Analyst. 5/23/08
15. **Section Number:** Indicator 09A
Field Name: HSIRace_MedicaidNo
Row Name: Number enrolled in Medicaid
Column Name:
Year: 2009
Field Note:
Source: DSSURS Oracle database: ELIG_6YR and CAPCLAIMS Dateload=4/5/07. Counts reported here were made ca. 20-25 days after the census date and should be considered preliminary.
Oregon Division of Medical Assistance Programs.
16. **Section Number:** Indicator 09A
Field Name: HSIRace_SCHIPNo
Row Name: Number enrolled in SCHIP
Column Name:
Year: 2009
Field Note:
SCHIP included in Medicaid data reports.
17. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2009
Field Note:
Source: DHS Child Welfare Research and Reporting Unit. Unduplicated clients, end of month master files, age 0-19 at time of pull. Don Bartell, Data Base Analyst. 5/23/08
